Terry, an MK, and Dana met in college, married three days after graduation, then spent four months in Trinidad. They joined Berean Mission, Inc., and served in Grenada for 12 years. In Grenada they built churches, replanted a church, built a youth camp, started a Christian school, and by the end of that time seven churches had been planted.

In England, where they have lived for nearly 30 years, the Martins first desired to plant churches but soon found that helping small struggling churches was much more needful, effective, and efficient. They have since taken four churches and grown the churches from 4 to 50, 45 to 100, 45 to 45 (the next year they were over 100!), and lately 8 to about 40! "All by God's Grace!" Terry is also a Church Consultant, going to small struggling churches across England with a program to help them grow.
