Supported by Grace Church since 2005

Abedan is a church-planter in Zhingabai Takle, which is in the Nagpur district of India. By God's grace he is overseeing four home cell groups in different areas of the district. At Sunday services, typically around 35 people attend the church to glorify God. Abedan has been blessed to baptize many of these.

Abedan asks us to pray for him, that he would be an effective witness for Christ, so that he may bring more souls to Him. Also pray for church growth and maturity in Christ, as well as for God's provision for their family. They are also asking God to provide a church building for the believers there.
